About Company

Evolution is more than a tile — it's a statement of design without limits. The Infinite Collection redefines surface aesthetics through advanced ceramic innovation, offering tiles that blend timeless style with cutting-edge performance.

Crafted using next-gen digital printing and ultra-refined raw materials, Evolution Infinite Tiles are engineered to deliver seamless visual continuity, exceptional durability, and versatile application across floors, walls, and facades. Each tile in the collection features intricate patterns, sophisticated finishes, and precise detailing — all created to inspire bold architectural expressions.

This collection is the culmination of our pursuit for infinite design possibilities, where high-definition textures meet enduring strength. Resistant to wear, weather, and water, Evolution tiles stand strong in both interior and exterior environments. With Infinite, Evolution empowers architects and designers to break traditional boundaries and explore creative freedom like never before. This is our promise: Infinite Design. Infinite Possibility.

Design and technology
solutions for sustainable
architecture.

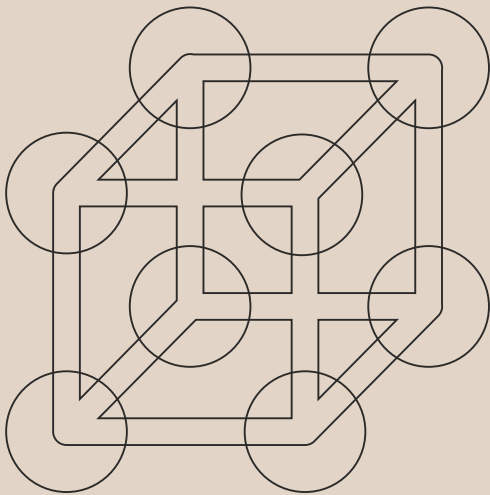

History

Evvolution is more than just a name it’s our journey, our philosophy, and our promise.

Born in 1994 from the vision of a family determined to shape something lasting, Evvolution began as a single manufacturing unit in India. Over time, it has grown into a group of forward-thinking businesses united by one belief: true progress comes from evolving with purpose.

Rooted in Indian values and built on entrepreneurial spirit, we’ve expanded across industries not just to diversify, but to lead with intention. From ceramics and quartz to wood panels, textiles, and minerals, each step we’ve taken has been guided by the same principles: integrity, innovation, and long-term thinking.
